## The City in Brief.

The closing of the new First National bank building is nearly finished.

Captain Ransford Smith and daughter, Miss Eugie, went to the capital last night.

Under the recent decision of the supreme court is the city council of Ogden a legal body?

The city council will meet to-night. It is not stated that there is any special business to be looked after.

"The World Against Her." at the Union Opera house to-morrow night. Go, lovers of the drama, and find out why.

It is rumored that a new daily newspaper backed by plenty of cash will be started in the city early next spring.

A new fangled steel has made its appearance in town, and yesterday the boys were giving it a trial on Twenty-fifth street hill.

Hon. C. C. Richards spent the day yesterday with his family in this city. He will be at his desk in the Council chamber to-day.

The only train that the Southern Pacific company are running out of Ogden now is No. 4 limited fast mail, with sleepers. It runs only to Reno.

The Southern Pacific sent train No. 4 out in two sections at 2 a.m. yesterday. Passengers were not given any assurance that they would be able to get through the blockade.

It is stated by a gentleman who is in a position to know just what he is talking about, that active work will be resumed on the great Bear River canal at the earliest practicable moment.

John O'Brien and Chris Lind were drunk and noisy yesterday afternoon and attracted the attention of a lynx-eyed cop, who took them to the lockup. To-day they will explain to Judge Pugh.

Frank Dudson was in from North Ogden yesterday. He has been seen hereabouts in fifteen years; "but," said he, "when the snow comes, I'll be off, and I'll all have to stay in the house for awhile."

Montpelier, the thriving little town on the Oregon Short line, between Granger and Pocatello, is to have another newspaper. It is to be called the "Montpelier Citizen," and will be published by J. C. Warren.

W. C. Warren, who was injured by being thrown from his sleigh on Wednesday, is confined to his room, where he is being carefully cared for. Mrs. Warren is in England on a visit. Mr. Warren's injuries, though painful, are not dangerous.

The telephone message received here yesterday, that the two acts of J. R. Bothwell against Jarvis & Conklin had been decided in favor of the latter, caused considerable comment, although the decision as rendered was generally expected.

The Fourth ward amusement company, one of our best local amateur dramatic associations, will give a performance in their new hall on the evening of the 30th inst., on which occasion they will present the five act drama entitled "Cast Upon the World."

Work has not been entirely suspended on the Bear Lake and River Waterworks and Irrigation company's canal. Men are still laboring at the dam at the head of Bear River cañon, on rock work, and lumber and cement are being taken there for use in the construction of the dam.

The funeral services of the late conductor, J. E. Ryan, were held Wednesday afternoon, under the auspices of the Grand Army of the Republic and Order of Railway Conductors, in Knights of Pythias hall, Cheyenne. The remains were afterwards shipped to Salt Lake city for interment.

C. E. Mayne, the promoter of the Ogden power dam scheme, who was ex-pelled here on the 18th, has been detained in San Francisco by the great snow blockade on the Sierra Nevada. In the meantime everything is being got in shape for an immediate organization of the company and the commencement of work on the dam.

Snow-slides from the precipitous cliffs in Ogden cañon are of frequent occurrence since the weather softened, and the road is traveled with difficulty. Should there be a day or two of warm, sunshiny weather now, the cañon road would become both difficult and dangerous to pass over.

A stockholders' meeting of the Bear Lake and River Waterworks and Irrigation company will be held to-night, and the necessary changes made to sustain the supremacy of the board and secure the vigorous prosecution of the work. Dr. Roach says there are now 500 men between here and Collinsville waiting to go to work.

The coal famine at Brigham City, Logan and other places on the Utah & Northern railroad is becoming serious. It is said that old lumber, fences, etc., are being used for fuel. As the road is now open, the first duty which the railroad company should perform is the conveying of coal to those places. Otherwise there will be great suffering.

The monster cyclone screw snow plow had difficulty in getting west out of Ogden night before last, on account of being unable to get over the crossings. The huge machine weighs eighty tons, and it requires a good track and strong bridges to permit of its safe conveyance over that road. By the use of jacks the plow was jacked over the crossings and left for the west at 10 o'clock.

It was made public yesterday afternoon that the postoffice in this city had been robbed of a large sum of money. According to the account published in the Union last evening, a drawer in the vault had been pried open with a hatchet, and General Kimball, in his report to the postoffice department, stated his belief that the robbery was committed during daytime on the 18th inst. An investigation is being made.

The Union Pacific baggage men, under the new order of things, are required to make a long run. It is between Ogden and Denver, instead of Cheyenne as formerly. The distance is 622 miles. They have only a brief lay over at Denver and but two days here, providing trains make schedule time, which is not of frequent occurrence nowadays. When trains are irregular, the baggage men don't get more rest and sleep than they need.

"Pie-ee" clubs, composed of the rit rat of society, have had a great deal to do with making political reputations for some men who are now counted as statesmen. In a certain far western city, several years ago, these clubs did the trick openly and above board, notwithstanding the stringent laws regarding elections and for preserving the purity of the ballot. The members held themselves at a high figure, so it is said, and it generally took more than thirty pieces of silver to induce one of those patriots to do as he was wanted to. Are there any pie clubs in Salt Lake city?

The usual treatment of catarrh is very unsatisfactory, as thousands of despairing patients can testify. A trustworthy medical writer says: "Proper local treatment is positively necessary to success, but most of the remedies in general use by physicians afford but temporary benefit. A cure cannot be expected from snuff, powders, douches and washes." Dr. Ely's Cream Balm is a remedy which combines the important requisites of quick action, specific curative power, with perfect safety and pleasantness to the patient.

Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. Twenty-five cents a bottle.

## "LA GRIPPE," OR "INFLUENZA."

La Grippe, from the French, and Influenza, from Italian, when translated, mean Epidemic Catarrh. Medical science recognizes Catarrh not as a contagious, but a contracting disease, a mere development of a severe cold, hence La Grippe is preventible by avoiding your free circulating blood to any attack of cold. Therefore, take our advice and look out.
